Education

*Bachelor of Arts in English
Degree*

Rutgers College
New Brunswick, NJ

Certifications

*Google AI Professional
Certificate (2026)*

*An Introduction to Learning
Experience Design (LXD) by
University of Michigan (2025)*

*Learning and Development
HCRI (2025)*

*Managing Systems Auditing
BSI Group America (2017)*

*Environmental Management
Systems
BSI Group America (2017)*

Key Skills

LMS/PLM: SumTotal, SAP,
ENOVIA, Lawson.

Design: Articulate Storyline &
Rise, Audio/Visual Systems,
Technical Writing.

Data: SQL, Access Database
Design, Relational/Non-
Relational Systems.

Affiliations

*Moniteur / Instructor/ Coach
United States Fencing/ Buck's
County Academy of Fencing
(1988 – Present)*

Professional Summary

Senior Training & Development Leader with over 20 years of experience in pharmaceutical operations, medical devices, and corporate learning environments. Expert in designing and implementing GMP-compliant training strategies that drive organizational readiness and regulatory excellence. Proven track record in managing enterprise-wide LMS transitions, developing 200+ interactive eLearning modules, and leading cross-functional teams to close performance gaps.

Key Expertise

- Strategic Leadership: Training Program Development, Cross-Functional Collaboration, Mentorship.
- Compliance & Quality: FDA/GMP Regulations, Quality Systems Auditing (BSI Certified), SOP Development.
- Instructional Design: Articulate 360 (Storyline/Rise), Learning Experience Design (LXD), Virtual & Instructor-Led Training.
- Systems Management: SumTotal LMS, SAP LSO, ENOVIA PLM, Database Design (SQL/Access)

Life Sciences Leadership Experience

*Head of GMP Learning and Development / Training Coordinator | Solvatum (Formerly 3M) –
Medical Device Manufacture | Flemington, NJ | September 2016 - Present*

- Lead training strategy for 240 sitewide employees, ensuring 100% compliance with GMP standards and corporate safety protocols.
- Designed and deployed over 200 interactive eLearning courses using Articulate 360, significantly increasing training accessibility for remote and shift-based teams.
- Spearheaded the site-wide transition from SAP LSO to SumTotal LMS, migrating and updating over 1,000 training assets while maintaining system integrity.
- Administer the PLM documentation system, serving as the final approval authority for all SOPs, test methods, and technical standards.
- Conduct annual Environmental Management Systems audits to ensure strict adherence to regulatory requirements and identify areas for continuous improvement.
- Managed the onboarding of 300+ individuals, ensuring a high-standard "training-to-floor" readiness for roles ranging from production to engineering.
- Worked with corporate office in Minnesota to facilitate audit readiness and facilitation.

*Technical Writer | 3M (Volt Workforce) | Medical Device Manufacture
Flemington, NJ | June 2013 – September 2016*

- Promoted to full-time leader for impact as a technical liaison between Project Management and IT, driving alignment across global business units.
- Authored and controlled complex planning documentation for project teams, ensuring compliance with pharmaceutical research and development standards.
- Developed enterprise-level COGNOS reporting tools and digital surveys to streamline data collection for project portfolio management.
- Served as Subject Matter Expert (SME) for the Compound and Project Attribute System (CAPAS), supporting global finance and PM teams

*Senior Document Technical Analyst | Johnson & Johnson Pharmaceutical
Raritan, NJ | February 2000 – October 2009*

- Promoted to full-time leader based on high performance as a technical liaison between Global Project Management and IT.
- Maintained compliance and strategic alignment by authoring and controlling critical planning documents for pharmaceutical project teams.

- Developed global reporting tools using COGNOS and web-based systems to provide leadership with insights into project portfolio health.
- Standardized data collection by creating the company's first electronic "Drugs in Development" survey, streamlining visibility across global departments
- Acted as Subject Matter Expert (SME) for the Compound and Project Attribute System (CAPAS), supporting Finance and Project Portfolio Management (PPM)

Technical Experience

Database Engineer | IEEE (Contract Position)

Piscataway, NJ | June 2012 – October 2012

- Designed, developed, and administered custom databases for the Signal Processing Society, Logistics, and Finance, significantly improving data accessibility and operational efficiency.
- Led full-cycle development and deployment of departmental applications, including end-user training across multiple functional units to ensure smooth adoption and usability.
- Engineered and optimized relational and non-relational database systems to support IEEE's digital platforms, enhancing performance and scalability for large-scale data operations.
- Collaborated with cross-functional teams to integrate databases with enterprise applications, ensuring data integrity, security compliance, and seamless reporting.

Human Capital Management System Consultant | Somerset Medical Center

Somerville, NJ | September 2011 – June 2012

- Led successful integration of the Lawson Human Resources system for 2,300 employees, ensuring seamless data migration and system adoption.
- Analyzed onboarding and performance management workflows to gather business requirements and optimize system configuration.
- Provided ongoing data management support post-rollout, ensuring data integrity, user access, and reporting accuracy.
- Collaborated cross-functionally to align HR technology solutions with organizational goals, enhancing efficiency and user experience.

Technical Consultant, Theater Department | Raritan Valley Community College

Flemington, NJ | October 2009 – June 2013

- Programmed and operated sound, lighting, and technical systems for live performances, ensuring seamless execution of theatrical productions and events.
- Managed audio/visual installations and presentations for large-scale meetings, educational sessions, and public events, delivering high-quality technical support.
- Provided hands-on production assistance for rehearsals, shows, and presentations, collaborating with directors and performers to meet artistic and safety standards.
- Modified and maintained workstation data collection systems using SQL and Excel, improving real-time reporting and operational efficiency.
